

UNITED STATES OF AMERICA
BEFORE THE FEDERAL TRADE COMMISSION

5. The documents in question contain highly sensitive, non-public information regarding Micron's [cost structure, historical output, etc.] This information is held in strict confidence by Micron technology.

8. I believe that if the confidential information in these documents is disclosed to the public, Micron is likely to suffer serious competitive harm because competitors, including Rambus, would have access to information that could allow them to shape their pricing or other competitive strategies to take advantage of non-public facts about Micron's capacity and costs.

I declare under penalty of perjury under the Laws of the United States of America that the foregoing is true and correct. Executed this ____ day of June, 2003 in Washington, District of Columbia.

Brian Shirley

Micron Technology, Inc.
