## PATENTED TOPICAL GEL REDUCES TUMMY FAT!

*‘This new, highly concentrated formula allows for precise, targeted delivery... making it the first true spot-reducing gel capable of effective reduction of dense abdominal fat.’*

(emphasis in original)

“CLINICALLY PROVEN

### **How It Works – The Science**

It is well documented that when beta adrenergic stimulants such as Epidril are added to a culture dish with adipose (fat) cells, the cells deflate as they release their stored fat – very similar to the way a balloon deflates when stuck with a pin. The evidence is conclusive.

Epidril has been verified by two published clinical trials and has been awarded a United States Patent [No. 4,525,359].”

**“The ‘Fine Print’**

As with all Epidril formulations, there are two caveats. First, because Sovage Tummy Flattening Gel works by forcing stored fat out of abdominal fat cells and into the bloodstream to be burned as energy, you have to help burn off the released fat by exercising or decreasing caloric intake so circulating fat is not redeposited. Second, you might be tempted to use more than the recommended dosage of Sovage Tummy Flattening Gel. Don’t...there is simply no way for your body to deal with that much released fat.

**See Visible Results in Approximately 19 Days, Guaranteed!**

Use Sovage Tummy Flattening Gel as directed, and you will begin to see dramatic, visible results in approximately 19 days.”

“NOTE: Many of our clients who have considered liposuction surgery use Sovage Tummy Flattening Gel first, as a kind of ‘test-drive’ before committing to a possibly dangerous surgical solution.”

**“The Power of Sovage Tummy Flattening Gel**

The ultimate power of Sovage Tummy Flattening Gel results from a patent-pending process that allows precise delivery of its **ultra-concentrated** Epidril base formulation to resistant areas of dense abdominal fat – selectively accelerating the breakdown of regional fat cells. Sovage Tummy Flattening Gel is a quick-penetrating gel so thick,

## “LEPTOPRIN

The Ultimate Weight Loss Compound For The Significantly Overweight... More Than 20 Pounds Overweight or A Body Mass Index (BMI) Greater Than 27”

“Unless a weight-control compound addresses the genetic factor – and helps you overcome your genetic predisposition to obesity – your attempts at weight loss become no more than an exercise in futility (and a waste of time and money).

But now there’s Leptoprin – the first weight-control compound designed to mitigate the profound effect that variations in the human genetic code have on the storage, use, and disposition of body fat.

Leptoprin is an extremely powerful anorectic agent and is not intended for use by the casual dieter who is merely attempting to shed five or ten ‘vanity’ pounds. However, if substantial, excess body fat is adversely affecting your health and self-esteem, then it’s time for you to discover Leptoprin – the first comprehensive weight-loss compound designed specifically to overcome your genetic predisposition.

### **Leptoprin: The Result of an Extraordinary Collaboration**

Leptoprin (or more correctly, its patent-protected core compound, Leptoprin) is the result of an extraordinary collaborative effort between Dr. Daniel B. Mowrey, Director of Scientific Affairs, APRL (American Phytotherapy Research Laboratory), Salt Lake City, Utah, and Dr. Edward G. Fey, University of Massachusetts Medical Center, Worcester, Massachusetts. Though working independently, both doctors were keenly aware of the growing body of evidence linking obesity to certain genetic ‘markers.’ In September of 1998, Drs. Mowrey and Fey discovered each had access to compatible patents for variant methods of regulating obesity. As they familiarized themselves with each others’ work, it became clear that combining the patented formulations could overcome genetic anomalies responsible for significant overweight.”

### **“Leptoprin: Now Available in The United States Without A Prescription**

In a report dated February 19, 2000, Dr. Mowrey stated ‘Although Leptoprin is much too powerful for the ‘casual dieter,’ the ability of Leptoprin to help people overcome the genetic implications of obesity leads me to believe Leptoprin, and its base formulation Leptoprin, is the most effective means of providing considerable benefit to that vast population of American men and women who are significantly overweight. That is, until science develops a reliable means of altering the genetic code.’ If You’re Significantly Overweight, You Need Leptoprin. If you’re significantly overweight (more than 20 lbs. of excess body weight and/or a BMI greater than 30), there is only one weight-control compound specifically designed for you... it’s Leptoprin. Patent-protected, clinically established, and guaranteed to help you become the thinner, healthier, and more active person you’ve always wanted to be.” (Ellipses in original)

28. Through the means described in Paragraph 27, respondents have represented, expressly or by implication, that:

- A. Leptoprin causes weight loss of more than 20 pounds, including as much as 50, 60, or 147 pounds, in significantly overweight users; and
- B. Leptoprin causes loss of substantial, excess fat in significantly overweight users.

29. Through the means described in Paragraph 27, respondents have represented, expressly or by implication, that they possessed and relied upon a reasonable basis that substantiated the representations set forth in Paragraph 28, at the time the ns set forth in h as 50,

answer in which the allegations of the complaint are contested shall contain a concise statement of the facts constituting each ground of defense; and specific admission, denial, or explanation of each fact alleged in the complaint or, if you are without knowledge thereof, a statement to that effect. Allegations of the complaint not thus answered shall be deemed to have been admitted.

If you elect not to contest the allegations of fact set forth in the complaint, the answer shall consist of a statement that you admit all of the material allegations to be true. Such an answer shall constitute a waiver of hearings as to the facts alleged in the complaint, and together with the complaint will provide a record basis on which the Administrative Law Judge shall file an initial decision containing appropriate findings and conclusions and an appropriate order disposing of the proceeding. In such answer you may, however, reserve the right to submit proposed findings and conclusions and the right to appeal the initial decision to the Commission under Section 3.52 of the Commission's Rules of Practice for Adjudicative Proceedings.

Failure to answer within the time above provided shall be deemed to constitute a waiver of your right to appear and contest the allegations of the complaint and shall authorize the Administrative Law Judge, without further notice to you, to find the facts to be as alleged in the complaint and to enter an initial decision containing such findings, appropriate conclusions and order.

The following is the form of order which the Commission has reason to believe should issue if the facts are found to be as alleged in the complaint. If, however, the Commission should conclude from record facts developed in any adjudicative proceedings in this matter that the proposed order provisions as to Basic Research, L.L.C., a limited liability corporation; A.G. Waterhouse, L.L.C., a limited liability corporation; Klein-Becker usa, L.L.C., a limited liability corporation; Nutrasport, L.L.C., a limited liability corporation; Sovage Dermalogic Laboratories, L.L.C.; BAN, L.L.C., a limited liability corporation; Dennis Gay, individually and as an officer of the limited liability corporations; Daniel B. Mowrey, also doing business as American Phytotherapy Research Laboratory; and Mitchell K. Friedlander, might be inadequate to fully protect the consuming public, the Commission may order such other relief as it finds necessary or appropriate, including corrective advertising or other affirmative disclosure.

Moreover, the Commission has reason to believe that, if the facts are found as alleged in the complaint, it may be necessary and appropriate for the Commission to seek relief to redress injury to consumers, or other persons, partnerships or corporations, in the form of restitution and refunds for past, present, and future consumers and such other types of relief as are set forth in Section 19(b) of the Federal Trade Commission Act. The Commission will determine whether to
