14. The effects of the Acquisition, if consummated, may be to substantially lessen competition and to tend to create a monopoly in the relevant markets in violation of Section 7 of the Clayton Act, as amended, 15 U.S.C. § 18, and Section 5 of the FTC Act, as amended, 15 U.S.C. § 45, in the following ways, among others:

- a. by eliminating actual, direct, and substantial competition between Respondent Schering-Plough and Akzo Nobel for the research, development, manufacture, and sale of live vaccines for the prevention and treatment of the Georgia 98 strain of infectious bronchitis virus in poultry, live vaccines for the prevention and treatment of fowl cholera due to *Pasteurella multocida* in poultry, and live vaccines for the prevention and treatment of *Mycoplasma gallisepticum* in poultry in the United States;
- b. by increasing the ability of the merged entity to raise prices unilaterally of live vaccines for the prevention and treatment of the Georgia 98 strain of infectious bronchitis virus in poultry, live vaccines for the prevention and treatment of fowl cholera due to *Pasteurella multocida* in poultry, and live vaccines for the prevention and treatment of *Mycoplasma gallisepticum* in poultry in the United States; and
- c. by reducing the merged entity's incentives to improve service or product of live vaccines for the prevention and treatment of the Georgia 98 strain of infectious bronchitis virus in poultry, live vaccines for the prevention and treatment of fowl cholera due to *Pasteurella multocida* in poultry, and live vaccines for the prevention and treatment of *Mycoplasma gallisepticum* in poultry in the United States.
