Analysis of Proposed Consent Order To Aid Public Comment

The Federal Trade Commission has accepted an agreement, subject to final approval, to a proposed consent order from respondent Care Technologies, Inc.

The proposed consent order has been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again review the agreement and the comments received and will decide whether it should withdraw from the agreement or make final the agreement's proposed order.

Care Technologies, Inc. (''Care'') markets two products for the treatment of head lice infestations: ''Clear Lice Egg Remover'' and ''Clear Lice Killing Shampoo.'' The Commission's complaint alleges that Care's advertising for these products included false and unsubstantiated claims that: (1) Clear Lice Egg Remover loosens or unglues lice eggs from the hair; (2) Clear Lice Killing Shampoo kills one hundred percent of lice eggs; and (3) laboratory and field testing proves that Clear Lice Egg Remover loosens or unglues lice eggs from the hair.

The complaint alleges that Clear Lice Egg Remover does not loosen or unglue lice eggs from the hair. Additionally, the complaint explains that Clear Lice Killing Shampoo is based on a pesticide which is not one hundred percent effective against lice eggs. Consumers should be aware of this limitation and make every effort to physically remove lice eggs. In addition, when this type of pediculicide is used, consumers are instructed to apply a second treatment in seven to ten days to kill any newly hatched lice.

The proposed consent order contains provisions designed to remedy the violations charged and to prevent the respondent from engaging in similar acts and practices in the future. Part I of the proposed order would prohibit the company from representing that Clear Lice Egg Remover, or any substantially similar product, loosens, unglues, or otherwise detaches lice eggs from the hair, unless the representation is true and, at the time it is made, respondent possesses and relies upon competent and reliable scientific evidence that substantiates the representation.

Part II of the proposed order would prohibit the company from representing that Clear Lice Killing Shampoo, or any substantially similar product, kills one hundred percent of lice eggs, unless the representation is true and, at the time it is made, respondent possesses and relies upon competent and reliable scientific evidence that substantiates the representation.

Parts III and IV of the order require that, for a period of two years, the company make disclosures in its advertisement anytime it makes claims regarding the efficacy of Clear Lice Killing Shampoo or any substantially similar product. Pursuant to Part III, the following disclosure will be required in print ads and promotional materials: ''Reapplication and egg removal are required to ensure complete effectiveness. See label for important information.'' Part IV requires the disclosure, ''Two Treatments Required,'' be made in ads communicated through an electronic medium, such as television. When the ad makes any claims regarding directions for use of the product, this disclosure must be in the audio as well as the video portion of the advertisement.

Part V of the proposed order requires the company to have scientific support prior to making any claims regarding the efficacy of any drug or device for the treatment of lice in humans, or any pesticide for treatment of lice. Part VI of the order of the proposed order prohibits Care from misrepresenting the existence, contents, validity, results, conclusions, or interpretations of any test study or research, for any drug or device for the treatment of lice in humans, or any pesticide for treatment of lice. Because this matter involves drug regulated by the FDA, Part VII of the order includes a safe harbor allowing the respondent to make any claim permitted under a new drug application, or under a tentative final or final standard promulgated by the agency.

The proposed order also requires the respondent to maintain materials relied upon to substantiate claims covered by the order to provide copies of the order to certain personnel of the respondent; to notify the Commission of any changes in corporate structure that might affect compliance with the order; and to file one or more reports detailing compliance with the order.

The purpose of this analysis is to facilitate public comment on the proposed order. It is not intended to constitute an official interpretation of the agreement and proposed order or to modify in any way their terms.

By direction of the Commission.

Donald S. Clark,

Secretary.
