

Consumer Advisory Council; Notice of Meeting of Consumer Advisory Council

The Consumer Advisory Council will meet on Thursday, June 29, 1995. The meeting, held pursuant to 15 U.S.C. 1691(b) and 12 CFR 267.5, will take place in Terrace Room E of the Martin Building. The meeting, which will be open to public observation, is expected to begin at 9:00 a.m. and to continue until 4:00 p.m., with a lunch break from 1:00 p.m. until 2:00 p.m. The Martin Building is located on C Street, Northwest, between 20th and 21st Streets in Washington, D.C.

The Council's function is to advise the Board on the exercise of the Board's responsibilities under the Consumer Credit Protection Act and on other matters on which the Board seeks its advice. Time permitting, the Council will discuss the following topics:

Community Reinvestment Act Reform. Discussion led by the Bank Regulation Committee regarding the agencies' implementation of new regulations under the Community Reinvestment Act, including (1) what issues should be addressed in the examination procedures and examiner training; (2) what impact the new rules might have on lending in low- and moderate-income areas; and (3) whether additional incentives may be needed to encourage institutions to choose to be evaluated for CRA under the strategic plan option.

Voluntary Data Collection of Personal Characteristics of Credit Applicants. Discussion led by the Consumer Credit Committee of a proposed amendment to the Board's Regulation B (Equal Credit Opportunity) that would allow, but not require, creditors to ask for the race, color, sex, religion and national origin of credit applicants to help ensure compliance with the Equal Credit Opportunity Act and other fair lending laws.

Consumer Leasing Disclosures (Tentative). Further discussion led by the Consumer Credit Committee on possible amendments to the Board's Regulation M (Consumer Leasing) to address technological and other developments in the leasing industry and to simplify compliance and reduce burdens without diminishing consumer protections.

Right of Rescission under the Truth in Lending Act. Presentation by members of the Consumer Credit Committee on the right of rescission, a legal remedy available to all consumers who secure a loan transaction with their homes. (Legislation has been introduced in the Congress that would limit the

availability of the right in different ways.)

Legislative Proposals for Regulatory Relief under the Truth in Lending Act. Discussion led by the Consumer Credit Committee on recent legislative proposals that would amend the Truth in Lending Act to, among other things, (1) streamline consumer disclosures required for adjustable rate mortgages, and (2) eliminate, limit, or reduce potential creditor liability for disclosure errors.

Need for Reconciliation of Provisions of the Truth in Lending and Real Estate Settlement Procedures Acts. Discussion led jointly by the Consumer Credit Committee and the Community Affairs and Housing Committee of whether and how provisions of the Truth in Lending Act and the Real Estate Settlement Procedures Act or the implementing regulations should be amended to facilitate compliance.

Governor's Report. Report by Federal Reserve Board Member Lawrence B. Lindsey on economic conditions, recent Board initiatives, and issues of concern, with an opportunity for questions from Council members.

Members Forum. Presentation of individual Council members' views on the economic conditions present within their industries or local economies.

Committee Reports. Reports from Council committees on their work.

Other matters previously considered by the Council or initiated by Council members also may be discussed.

Appendix A

Dear Purchaser of a Duram Emergency Escape Mask: Please note this important safety information:

The Duram Emergency Escape Mask you purchased does not filter carbon monoxide—a lethal gas associated with fire. This mask will not protect you from the effects of carbon monoxide gas.

This means that if you are wearing the Duram Emergency Escape Mask during a fire, exit immediately. You should know that carbon monoxide is colorless and odorless.

Our company, Life Safety Products, is sending all Duram Emergency Escape Mask ("Duram Mask") purchasers this alert as a

result of a consent order with the Federal Trade Commission. According to the Federal Trade Commission, advertisements for the Duram Mask claimed that the mask would protect you from all significant fire hazards for up to 20 minutes. These hazards included toxic smoke, poisonous fumes, and lethal gases.

The advertisements for the Duram Mask did not make it clear that the mask does not filter carbon monoxide—a lethal gas associated with fires.

We have now agreed not to make any claims about the mask's ability to protect you from fire hazards, unless we have reliable scientific evidence to back up these statements.

We also have learned that these masks are not appropriate for use in U.S. mines.

While the Duram Mask will not protect you from carbon monoxide gas, it will protect you from other potentially lethal gases associated with fire. These gases include hydrogen chloride, hydrogen cyanide, nitrogen dioxide, and sulfur dioxide.

Life Safety Products

Analysis of Proposed Consent Order To Aid Public Comment

The Federal Trade Commission has accepted an agreement, subject to final approval, to a proposed consent order from respondents Frank A. Latronica, Jr., doing business as Life Safety Products, and Duram Rubber Products.

The proposed consent order has been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again review the agreement and the comments received and will decide whether it should withdraw from the agreement and take other appropriate action or make final the agreement's proposed order.

This matter concerns claims made by the respondents in their advertising and other promotional materials that the Duram Emergency Escape Mask will absorb or filter out all significant toxic smoke and poisonous fumes and lethal gases associated with fires; will protect the user from all significant hazards associated with toxic smoke, poisonous fumes and lethal gases in fires for up to twenty minutes; and is appropriate for use in mines. The Commission's complaint charges that respondents' claims are false and misleading because the Duram Emergency Escape Mask will not absorb or filter out all significant toxic smoke and poisonous fumes and lethal gases associated with fires because it does not absorb or filter out carbon monoxide, a lethal gas associated with fires; will not protect the user from all significant hazards associated with toxic smoke, poisonous fumes and lethal gases in fires for up to twenty minutes because it does not absorb or filter out carbon monoxide, a lethal gas associated with fires; and it is not appropriate for use in mines because it does not meet the standards developed by the National Institute for Occupational Safety and Health and the United States Bureau of Mines for Respiratory Protective Devices, as set forth in 30 CFR part 11.

The Commission's complaint also charges that the respondents falsely represented that they possessed and relied upon a reasonable basis that substantiated the above claims. The Commission's complaint alleges that this representation is false and misleading because at the time they made these three representations respondents did not possess and rely upon a reasonable basis that substantiated these claims.

The Commission's complaint also alleges that respondents' failure to disclose to consumers that the Duram Emergency Escape Mask does not absorb or filter out carbon monoxide, is a deceptive practice.

Finally, the Commission's complaint charges that in their advertising and other promotional materials respondents represented, directly or by implication, that scientific tests prove that the Duram Emergency Escape Mask filters 94% of the smoke in an environment filled with smoke. The Commission's complaint alleges that this representation is false and misleading because scientific tests do not prove that the Duram Emergency Escape Mask filters 94% of the smoke in an environment filled with smoke.

The proposed consent order contains provisions designed to remedy the violations charged and to prevent the respondents from engaging in similar acts and practices in the future.

Part I of the proposed order prohibits the respondents from representing, directly or by implication in its advertising or labeling for the Duram Emergency Escape Mask, or any substantially similar product, that such product is capable of absorbing, removing, filtering out, or otherwise protecting the user from any hazardous gas or fumes associated with fire and such product can protect the user from any hazards associated with fire unless such representation are true, and respondents possess and rely upon competent and reliable scientific evidence that substantiates them. Part I of the proposed order also prohibits the respondents from representing, directly or by implication in its advertising or labeling for the Duram Emergency Escape Mask, or any substantially similar product, that such product is appropriate for use in mines, unless such representations are true, and respondents possess and rely upon competent and reliable evidence that substantiates them.

Part II of the proposed order requires respondents to include a disclosure in any advertisement or promotional material for the Duram Emergency Escape Mask or any substantially similar product alerts consumers that the mask is incapable of absorbing, removing, filtering or otherwise providing significant protection from carbon monoxide, if the advertisement or promotional material expressly or impliedly represents that the device protects the user from any hazard associated with fire. The proposed order also specifies the size and placement of such a disclosure for print advertisements and the nature and manner of such a disclosure for audio and visual advertisements.

Part III of the proposed order requires respondents to include a disclosure on all

package labels and package inserts for the Duram Emergency Escape Mask or any substantially similar product that alerts consumers that the mask does not filter carbon monoxide, a lethal gas associated with fire. The proposed order also specifies the size of such a disclosure and that it must be in a typeface and color that are clear and prominent.

Part IV of the proposed order prohibits respondents from representing, directly or by implication, that any fire protection or safety related product protects or assists in protecting the user from respiratory hazards associated with fire, explosions, air pollution, chemical exposure or other environments where normal breathing is impaired, unless, at the time of making such representation, respondents possess and rely upon competent and reliable evidence, which when appropriate must be competent and reliable scientific evidence, that substantiates the representation.

Part V of the proposed order prohibits respondents from misrepresenting, in any manner, directly or by implication, for any fire protection or safety related product, the existence, contents, validity, results, conclusions or interpretations of any test or study.

Part VI of the proposed order requires respondents to mail to each person who has purchased the Duram Emergency Escape Mask from Life Safety Products, or from any catalog retailer to whom Life Safety Products has sold the Duram Emergency Escape Mask for resale, a notification letter informing the consumer that the Duram Emergency Escape Mask they have purchased does not filter carbon monoxide.

The remaining parts of the proposed consent order require the respondents to maintain materials relied upon in disseminating any representation covered by the order, to distribute copies of the order to certain company officials and employees, to notify the Commission of any changes in the corporate structure of Duram Rubber Products or the employment status of Mr. Frank A. Latronica, Jr., that might affect compliance with the order, and that each respondent file one or more compliance reports.

The purpose of this analysis is to facilitate public comment on the proposed consent order. It is not intended to constitute an official interpretation of the agreement and proposed order or to modify their terms in any way.

Secretary.
