

(e) The mandatory continuing airworthiness information (MCAI) states that rudder control forces during aerobatic operation and nose wheel steering reaction forces may cause rudder bar distortion. Rudder bar distortion could result in reduced or loss of control. The MCAI requires you to replace the left and right rudder bars with reinforced rudder bars.

claims that are unfair or deceptive under Section 5 of the FTC Act, 15 U.S.C. 45.² Industry guides, such as these, are administrative interpretations of the law. Therefore, they do not have the force and effect of law and are not independently enforceable. The Commission can take action under the FTC Act, however, if a business makes environmental marketing claims inconsistent with the Guides. In any such enforcement action, the Commission must prove that the act or practice at issue is unfair or deceptive.

The Green Guides outline general principles that apply to all environmental marketing claims and then provide guidance regarding specific environmental claims. For all claims, the Guides advise: That qualifications and disclosures be sufficiently clear and prominent to prevent deception; that marketers make clear whether their claims apply to the product, the package, or a component of either; that claims not overstate an environmental attribute or benefit, expressly or by implication; and that marketers present comparative claims in a manner that makes the basis for the comparison sufficiently clear to avoid consumer deception.

The Guides then specifically address: general environmental benefit claims, such as “environmentally friendly” claims, the Gea (ey do sees advise: That)Tj T*al
