Re: Premerger Notification Rule 801.21

Dear Mr. Sharp:

This letter is to confirm my understanding, based on our telephone conversation of October 11, 1991, that the Commission's staff would apply Premerger Notification Rule 801.21 (16 C.F.R. § 801.21) in the manner described below to the transaction described below. It is my understanding that Rule 801.21 would apply as described below for the purpose of determining whether the value of the assets to be acquired exceed the \$15 million

million, and seller has total assets in excess of \$10 million.

Policy Loans, and municipal bonds and other marketable securities having a value on Seller's books of \$39.2 million (the "Securities"). The purchase price consists of \$4.5 million in cash and the assumption of all liabilities under the Policies. The Seller has reserved \$41 million on its books for the liabilities associated with the Policies.

Under the basic minimum size-of-transaction test established by § 801.21(a)(3) of the Act, read in conjunction with Rule 802.20, notification is required if, as a result of the acquisition, the acquiring person would hold assets of the acquired person valued

assets of the acquired person do not include, among other things,

[REDACTED]

According to Rule 801.10(b) and (c)(3), the value of the acquired assets is equal to the greater of the "fair market value" (determined by the board of directors of the ultimate parent entity of the acquiring person within 60 days of the filing under the Act) or the "acquisition price". As discussed above, the acquired assets consist of the Policies and the Policy Loans. The Buyer has advised us that it believes \$6.3 million is the fair market value of these assets.

Under Rule 801.10(c)(2), the acquisition price is equal to

[REDACTED] Labeled the acquisition (\$20.2 million) exactly equals the amount that [REDACTED]

[REDACTED]

value of the Policy Loans appears to be \$1.8 million. In other words, although the total consideration equals \$45.5 million (cash plus assumed liabilities) only \$6.3 million appears *raised*

Securities.

Therefore, the proposed transaction is not subject to the ~~ratification requirements~~ of the Act because the Buyer will hold assets of the Seller (the Policies and the Policy Loans) valued at only \$6.3 million as a result of the transaction.
