Dear Mr. Sharpe:

Thank you for taking the time to speak with me on Tuesday, March 9, 1999. I wanted to confirm the advice you gave me in response to my questions which arose in connection with a proposed filing.

the Premerger Notification Form. Specifically, I asked whether a non-U.S. acquirer that manufactured items outside the United States and sold such items directly to customers located in the United States, rather than through a wholesaler, distributor or subsidiary, would be deemed to be required to report revenues for the purposes of Items 5 and 7 and such activities would

for the purposes of Items 5 and 7 and the non-U.S. acquirer would not be required to report revenue information by SIC Code for such activities. You further advised that if items were manufactured outside the United States and were sold in the United States by a U.S. subsidiary of such non-U.S. acquirer, then such sales would constitute U.S. operations for the purposes of Items 5 and 7 and would be required to be reported by SIC Code as a wholesaler or retailer of such items, rather than as a manufacturer. Any items manufactured in the United States by a subsidiary of the non-U.S. acquirer, would, of course, require the non-U.S. acquirer to report revenues with respect to such items under the relevant SIC Codes as a manufacturer of such items.
