

Federal Trade Commission

Cigarette Report

for 2009 and 2010

ISSUED: 2012

billion cigarettes domestically, down from 322.6 billion in 2008. Sales declined from 320.0 billion in 2008 to 290.2 billion in 2009, while cigarettes given away declined from 2.7 billion in 2008 to 0.1 billion in 2009. In 2010, the total number of cigarettes sold and given away declined again, to 281.6 billion units, with 282.05 billion sold and 0.05 billion given away.

Because the major manufacturers report sales data to the Commission based on factory shipments, which can reflect changes in inventory holdings by cigarette wholesalers and retailers, the Commission's reports for a number of years included data produced by the U.S. Department of Agriculture (USDA), which were based on an estimate of the number of cigarettes actually consumed.² USDA data are not available for years after 2006.

IV. ADVERTISING AND PROMOTIONAL EXPENDITURES BY CATEGORY

Tables 2 through 2D show the amounts spent on cigarette advertising and promotion for the years 1970, and 1975 through 2010.³ These tables list the amounts spent on the different types of media advertising (e.g., magazines) and sales promotion activities (e.g., distribution of cigarette samples), and also give

manufacturers to report the number of cigarettes they sold but not the number they gave away. It is possible that in those earlier years, some manufacturers included in their sales figures some cigarettes that were actually given away.

² USDA's estimates also included sales by smaller manufacturers and importers.

³ The reported figures include all advertising, merchandising, and promotional expenditures related to cigarettes, regardless of whether such expenditures would constitute "commercial speech" or would be protected from law enforcement action under the First Amendment.

⁴ Definitions of the advertising and promotional expenditure categories currently used are reported in the Appendix to this report. If only one company reported spending money on a

the price of cigarettes to consumers (e.g., off-invoice discounts, buy downs, and voluntary price reductions), which accounted for expenditures of \$6.67 billion in 2009 (down from \$7.17 billion in 2008) and \$6.49 billion in 2010.

In addition, the industry spent \$428.7 million in 2009 (down from \$481.5 million in 2008) and \$370.0 million in 2010 on promotional allowances paid to cigarette retailers in order to facilitate the sale or placement of cigarettes (e.g., payments for stocking, shelving, displaying, and merchandising brands, volume rebates, and incentive payments); \$449.0 million (2009) and \$410.4 million (2010) on promotional allowances paid to cigarette wholesalers (e.g., payments for volume rebates, incentive payments, value-added services, and promotional executions); and \$965,000 (2009) and \$210,000 (2010) on promotional allowances paid to persons other than retailers and wholesalers. When these four promotional allowance categories are combined, they total \$7.55 billion, and account for 88.5 percent of all 2009 spending; for 2010, they total \$7.27 billion, 90.4 percent of all spending).

Money spent giving cigarette samples to the public ("sampling distribution") decre

⁵ Specialty item distribution includes the practice of selling or giving to consumers non-cigarette items, such as T-shirts, caps, sunglasses, key chains, lighters, and sporting goods.

percent of total advertising and promotional expen

⁶ This category does not include direct mail containing coupons, which is reported separately.

⁷ When coupons are distributed for free cigarettes and no purchase is required to redeem them, such activities are reported as “sampling,” not as “coupons.”

In 2008, the companies reported spending \$13.2 million on advertising on company websites; that figure rose to \$13.3 million in 2009 and then to \$10.8 million in 2010.

The compulsory process orders issued by the Commission in 2011 for 2009 and 2010 data specifically asked for the first time for spending on “social media marketing on Web sites or other online services or communities, including but not limited to social networking sites, microblogging sites, content-sharing sites, and blogs.” The companies reported no spending in either year.

The Commission requires the cigarette manufacturers to report the amounts they spent advertising and promoting sports and sporting events.⁸ This question is separate from, and duplicative of, the reporting of the individual various advertising and promotion categories. For example, money spent on a magazine advertisement promoting a cigarette-branded sports tournament open to those of all ages is reported under the category “general-audience public entertainment” and is also reported as an expenditure on “sports and sporting events.” Similarly, expenditures on sponsorship of sports teams and individual athletes are reported under the category “sponsorship” and are also reported as “sports and sporting events.” The companies reported that they did not spend any money on sports and sporting events in 2010; the Commission is not reporting the amount spent in 2009.

In 2001, the Commission began requiring the manufacturers to report expenditures on advertisements directed to youth or their parents that are intended to reduce youth smoking. The companies reported spending \$8.1 million on such advertising in 2009, and \$4.4 million in 2010.⁹

⁸ This includes expenditures for: (1) the sponsoring, advertising, or promotion of sports or sporting events; support of an individual, group, or sports team; and purchase of or support for equipment, uniforms, sports facilities, and/or training facilities; (2) all expenditures for advertising in the name of the cigarette company or any of its brands in a sports facility, on a scoreboard, or in conjunction with the reporting of sports results; and (3) all expenditures for functional promotional items (clothing, hats, etc.) connected with a sporting event.

⁹ These expenditures are not included in the \$8.53 billion (2009) and \$8.05 billion (2010) reported in Table 2D.

The compa

As shown in Tables 5 and 5A, filtered cigarettes have dominated the market since the Commission began collecting this information in 1963. Filtered cigarettes account for 99.5 percent of the market in both 2009 and 2010.

Table 6 provides the domestic market share of the various 3.0000 0.0000 TD (a)Tj 8.1600 0.0000 TD

¹⁰ Prior to 2002, the Commission asked whether “tar and nicotine ratings” were displayed on cigarette packaging.

¹¹ In 2008, the Commission rescinded guidance issued in 1966 that generally permitted statements concerning tar and nicotine yields if they were based on the Cambridge Filter Method. The Commission took this action because the scientific consensus was that machine-based measurements of tar and nicotine yields based on this testing methodology did not provide meaningful information on the amounts of tar and nicotine smokers receive from cigarettes, and that the test method was sufficiently flawed to make statements of tar and nicotine yields as measured by the method unlikely to help consumers make informed decisions. The Commission also believed that statements of tar and nicotine yields as measured by this test method were likely to mislead consumers who believe they will get proportionately less tar and nicotine from lower-rated cigarettes than from higher-rated brands.

APPENDIX

2009 and 2010 Advertising and Promotional Expenditure Categories

Newspapers: Newspaper advertising; but excluding expenditures in connection with sampling, specialty item distribution, public entertainment, endorsements, sponsorships, coupons, and retail-value-added.

Magazines: Magazine advertising; but excluding expenditures in connection with sampling, specialty item distribution, public entertainment, endorsements, sponsorships, coupons, and retail-value-added.

Outdoor: Billboards, signs and placards in arenas, stadiums, and shopping malls, whether they are open air or enclosed; and any other advertisements placed outdoors, regardless of their size, including those on cigarette retailer property; but excluding expenditures in connection with sampling, specialty item distribution, public entertainment, endorsements, sponsorships, coupons, and retail-value-added.

Audio-visual: Audio-visual or video advertising on any medium of electronic communication not subject to the Federal Communications Commission's jurisdiction, including screens at motion picture theaters, video cassettes or DVDs, and television screens or monitors in stores; but excluding expenditures in connection with Internet advertising.

Transit: Advertising on or within private or public vehicles and all advertisements placed at, on or within any bus stop, taxi stand, transportation waiting area, train station, airport, or any other transportation facility; but excluding expenditures in connection with sampling, specialty item distribution, public entertainment, endorsements, sponsorships, coupons, and retail-value-added.

Point-of-Sale: Point-of-sale advertisements; but excluding expenditures in connection with outdoor advertising, sampling, specialty item distribution, public entertainment, endorsements, sponsorships, coupons, and retail-value-added.

Price discounts: Price discounts paid to cigarette retailers or wholesalers in order to reduce the price of cigarettes to consumers; including off-invoice discounts, buy downs, voluntary price reductions, and trade programs; but excluding retail-value-added expenditures for promotions involving free cigarettes and expenditures involving coupons.

Promotional Allowances – Retail: Promotional allowances paid to cigarette retailers in order to facilitate the sale or placement of any cigarette, including payments for stocking, shelving, displaying and merchandising brands, volume rebates, incentive payments and the cost of cigarettes given to retailers for free for subsequent sale to consumers; but excluding expenditures in connection with newspapers, magazines, outdoor, audio-visual, transit, direct mail, point-of-sale, and price discounts.

Promotional Allowances – _____

cigarettes, including the cost of the items distributed but subtracting any payments received for the item. The costs associated with distributing non-cigarette items in connection with sampling or retail-value-added programs are reported in those categories, not as specialty item distribution.

Specialty Item Distribution – Non-Branded: All costs of distributing any item (other than cigarettes, items the function of which is to advertise or promote cigarettes or written or electronic publications), whether distributed by sale, redemption or otherwise. 11.8800 0.0000 TD (o)Tj 5.0400 0.0000 TD (46j30.4800 0.0000 TD/F27 9.0000 TD 0.4200 Tc-0.12:0 TD (i)Tj 2.7600 0.00 TD (eoni)Tj 18.(so)Tj
