DECISION AND ORDER

The Federal Trade Commission (“Commission” or “FTC”), having initiated an investigation of certain acts and practices of the respondent named in the caption hereof, and the respondent having been furnished thereafter with a copy of a draft complaint that the Bureau of Consumer Protection proposed to present to the Commission for its consideration and which, if issued by the Commission, would charge respondent with violations of the Federal Trade Commission Act (“FTC Act”), 15 U.S.C. § 45 *et seq.*;

The respondent, its attorney, and counsel for the Commission having thereafter executed an Agreement Containing Consent Order (“Consent Agreement”), which includes: a statement by respondent that it neither admits nor denies any of the allegations in the draft complaint, except as specifically stated in the Consent Agreement, and, only for purposes of this action, admits the facts necessary to establish jurisdiction; and waives and other provisions as required by the Commission’s Rules; and

The Commission having thereafter considered the matter and having determined that it had reason to believe that the respondent has violated the FTC Act, and that a complaint should issue stating its charges in that respect, and having thereupon accepted the executed consent agreement and placed such agreement on the public record for a period of thirty (30) days for the receipt and consideration of public comments, and having duly considered the comments received from interested persons pursuant to Commission Rule 2.34, 16 C.F.R. § 2.34, now in further conformity with the procedure prescribed in Commission Rule 2.34, the Commission hereby issues its complaint, makes the following jurisdictional findings, and enters the following Decision and Order (“Order”):

At a minimum, this risk assessment should include consideration of the risks in each relevant area of operations, including but not limited to: (a) employee training and management; (b) information systems, including network and software design, information processing, storage, transmission, and disposal; and (c) prevention, detection, and response to attacks, intrusions, and other system failures;

3. The design and implementation of reasonable safeguards to control the risks identified through risk assessment and regular testing and monitoring of the effectiveness of the safeguards' key controls, systems, and procedures;

4. The development and use of reasonable steps to select and retain service providers capable of appropriately safeguarding personal information they receive from respondent, and requiring service providers by contract to implement and maintain appropriate safeguards; and

5. The evaluation and adjustment of the information security program in light of the results of the testing and monitoring required by Paragraph 3 of this Section, any material changes to operations or business arrangements, or any other circumstances that Defendant knows or has reason to know may have material impact on the effectiveness of the information security program.
