2. How soon should I see results?

Results vary from individual to individual, but most people tell us that they observe some type of

Root, Sheen Sorel, Rhubarb Root, and Slinnew Elm Bark. It was this 4 herb formula which she presented to the Canadian Royal Cancer Commission in 1937. Later, during the 1950s when she was with Dr. Charles B. Schuchman, she on occasion added small amounts of 4 other herbs to the formula. Dr. Birsch later presented this 8 herb formula to the American Cancer Society in 1958. The 8 herbs are: Sheen Sorel, White Birch Bark, Marshmallow Root, Licorice Root, Slippery Elm Bark, and Slinnew Elm Bark.
