Subject: Question regarde in grant from the tiers affect from the short

I have a que strion about what PNO would expect to see in illings where the expect duantity value of shares to be acquired is not the last the second of the

notification triceshold strate and intermediate ining lee tiers. For example, a spose trial an investor's current intention is trial they will like the securities of the issuer valued somewhere between \$5 Julia M-\$1B, so the applicable filling fee is \$250K. However, the \$100M (as adjusted) notification threshold to be tried and in tention of states at \$222.7W and goes up to \$1.1137B.

For 2(d) and 3(a), does it still suffice to indicate "In excess of \$222.7MM but less than \$1,113.7MM" or would PNO expect to see the smaller band that aligns with the filing fee tier? We vii. If the property of the second part of the smaller band that aligns with the filing fee tier?

filing fee tier. In either case, is it still OK for the 803.5 motice letter to indicate the range ased on the notification

thresholds: www.homensholds.com

I assume that if the \$100M (as adjusted) notifications of the warning pentiting subsequent acquisitions of the warning pentiting subsequent acquisitions of the \$500M (as adjusted) or 50% infestions could still gualify for the 802.21 exemption its angle of the subsequent acquisition in the subsequent acqu

investor's nountrys would exceed the appethanton rileming lee tilem faction in the internal the film than the industry above example). I would appreciate if you co. Hid confirm my understanding the film of the internal tile in the internal tile in the industry and internal tile in the internal tile int
